This railway, that winds you up through rugged mountains, was built by the British in 1903 to provide access to their summer capital of Shimla. This is now deemed one of the most scenic train journeys in India, which takes you up steep tracks 2,276m above sea level. Check out our YouTube video below to watch our full experience, and keep scrolling to find out more about the famous toy train and the incredible town of Shimla. The toy train connects Kalka and Shimla, located north of Chandigarh in India mountainous northern state of Himachal Pradesh. It runs for 96km (60 miles), taking you through 20 railway stations, 103 tunnels, 800 bridges, and 900 curves! The longest tunnel stretches for more than a kilometer, and from that tunnel to Shimla is where you will see the best views. As the train is on a steep incline its speed is quite restricted, but this allows for some spectacular sightseeing along the way. The journey takes around 5 to 6 hours and after our experience we can confirm that this is one of the bucket list! Shimla has some amazing shopping spots, and one of our favourites is Lakkar Bazar. This long stretch of shops running on either side of the street is most popular for its wooden artefacts, but you can also get all types of souvenirs and little gifts to bring home. The market place was started by a group of Sikh carpenters that came and settled here. Since the beginning they make beautiful wooden products from woods such as deodars and walnut, which are commonly found around Shimla. 2. Hike to Jakhoo Hill If you are wanting to do a hike during your time in Shimla we highly recommend hiking to the top of Jakhoo Hill. Here you will find a temple that is very sacred for the Hindu community of India. Dedicated to the Monkey God, Hanuman, this hike will take you 2.5km from the Ridge and 2,455m above sea level - Shimla's highest peak. From the top you will be greeted by a spectacular panoramic view of Shivalik Ranges, and get up-close to the 32m tall Lord Hanuman. Built by the British, this stunning building was used as a summer retreat for the Indian President. It has now been converted into the institute to promote advanced studies in arts & humanities. The grand architecture and the beautiful surroundings makes it one of the most popular spots to visit in Shimla. If you are visiting in December to February you need to check out the only natural ice skating rink in India, located right here in Shimla. The ice is formed by a special technique that the British taught the Garhwali highlanders. The thickly forested hillside keeps it shaded and the low temperatures in winters prevent it from melting! 5. Go White River Rafting If you are an adrenaline junkie, one of the most adventurous things to do in Shimla is to go River Rafting. The river Sutlej which flows near the city is the most popular spot, carrying you from Chabba to Tattapani across 12kms and will take you around 2 hours to finish. LIKE THIS POST? PIN IT FOR LATER & SHARE IT WITH OTHERS! The Kalka Shimla Toy Train is a narrow gauge train that runs for a stretch of 90kms (around 60miles) from Kalka to Shimla, climbing more than 4800 feet!. On the Kalka Shimla Toy Train route, the train crosses ~103 tunnels, 800 bridges and 900 curves! Also, there are 20 old worldly stations dotted along the complete route from Kalka to Shimla. And they are mostly simple blue-white-red colored small stations, with wooden benches and small platforms, giving them the "right out of picture" look. In fact, some of them have multi storeys now. Hope we already gave you reason enough to ride the Kalka Shimla Toy Train One amongst the few heritage toy trains in India including the Darjeeling Toy Train and the Kangra Valley Toy Train. The Kalka Shimla Toy Train ride is one of the most scenic train journeys in India. The train slowly winds it's way through the upward track from Kalka to Shimla, through rugged mountains, waterfalls, tunnels and pine forests, crossing on its way jungles of wild flowers and beautiful bridges. The scenery is simply breathtaking. Since the train ascends through steep mountains, it goes at a very slow pace. This gives plenty of time for the on-boarded passengers to sync in the glorious beauty of nature that they are passing by. At curves and nearing stations the train speed gets advance. You can check for the ticket booking window and timetable at the Indian Railway Website and book your ticket from irctc.co.in History of Kalka Shimla Toy Train When India was under British rule, Shimla was the summer capital of the British empire. There were no good routes to reach Shimla at this point of time. Whatever mountain route was available, it was very risky and dangerous. It also used to take a lot of time to travel because of the bad condition of the route. In November 1903, the Kalka Shimla narrow gauge train was started to provide easy access from the plains to Shimla. Driven by a steam engine, the train passed through 109 tunnels and took 7 hrs to reach Shimla. The then viceroi Lord Curzon boarded the train on the first ride from Kalka to Shimla. Since then, the train has been complying daily, except for few maintenance breaks in between. The stations still use the old clocks to sync timings between them. Most of these stations are located besides picturesque bridges that provide an easy access from the mountain tracks to the stations. Sunlight is still used to illuminate the dark tunnels where the light is reflected through the mirrors. Conclusion On our trip to Shimla and Manali, we wanted to take the Kalka Shimla Toy Train ride. Since, I took this ride as a child years back and still have fond memories of it. But in lieu of time, we couldn't do it. I can't emphasize enough that if you have not taken this ride ever before, you must go for it. Once you reach Shimla, for onwards Shimla to Manali road trip, you can book a taxi or take a bus ticket. Then you can complete the loop back to Delhi or Chandigarh via a volvo bus from Manali. The Shimla Manali highway is also in a very excellent condition and one of the most beautiful road trips in India that you will take.
